THE COMPANY

Baliscan360 was founded in 2024 by three partners who combined their expertise in web development, real estate, and logistics to create a company **specializing in innovative virtual tours** using Matterport technology. Together, we bring a unique skill set:

- **Webmaster:** Ensures the technical quality and seamless integration of virtual tours for your business.
- **Real Estate Expert:** Leverages years of experience to help property owners showcase their spaces optimally.
- **Logistician:** Manages projects efficiently from scanning to final delivery.

We believe virtual tours are a growing market, especially in Bali, where remote access and international clientele are key assets. Our mission is **to help businesses stand out** by offering immersive experiences that attract and engage clients worldwide.
