OPTIONS

THE COMPANY

Baliscan360 was founded in 2024 by three partners who combined their expertise in web development, real estate, and logistics to create a company **specializing in innovative virtual tours** using Matterport technology. Together, we bring a unique skill set:

- **Webmaster:** Ensures the technical quality and seamless integration of virtual tours for your business.
- **Real Estate Expert:** Leverages years of experience to help property owners showcase their spaces optimally.
- **Logistician:** Manages projects efficiently from scanning to final delivery.

We believe virtual tours are a growing market, especially in Bali, where remote access and international clientele are key assets. Our mission is **to help businesses stand out** by offering immersive experiences that attract and engage clients worldwide.

NOTE/DISCUSSION WITH CLIENTS

Enhance collaboration with Matterport Notes: annotate, share, and organize tasks directly in 3D spaces.

Matterport Notes turns 3D spaces into collaboration hubs. Add annotations, assign tasks, and share feedback easily. With real-time notifications and file sharing, it's ideal for real estate, construction, and facility management, streamlining teamwork and improving communication effectively.

Price: 16.000.000 IDR / year

You + 8 users/clients included
